#### SESSION TIMELINE & OUTLINE:

Introduction

Facilitators welcome participants to the Drive-in and invite them to sit in groups of 4.

In groups, participants read and answer ice-breaker questions together. The participants can answer whichever question (or questions) they like best.

Using materials provided, the group will build a car that incorporates the groups answers to the questions together on one car. *For example: If one participant's favorite movie is Wizard of Oz, the group might make a yellow brick car. If another participant admires Bruce Lee, then the yellow car might have a Kung Fu ornament somewhere.*

The goal is for participants to get to know each other better through the creation of the vehicle.

Depending on your timeline and materials, the cars can be made by groups early in the day, or the day before, and the movie can be shown later. Cars can also be made really large if you have access to big boxes, or small if you don't. Creativity is the key!

When cars are complete, car group will choose their films:

The ice-breaker questions at the beginning of the program can serve to set a strong theme for the program. You may create new questions, or modify the suggested questions to foster different discussions.

For example:

Who is your favorite movie villain?

What movie reminds you of your own life?

What was the last movie that made you cry? Laugh?

What is the worst movie you have seen lately?

Who would play you in the movie of your life?
