

FJC Jewish Family Camp: Capacity-Building Pilot

APPLICATION

This initiative will provide overnight camps with financial and programmatic support to launch and/or expand their Family Camp offerings. Participating camps will be required to offer a minimum of three different family camp weekends (or holidays) per year for up to five-years (in cooperation with area partner organizations, who will recruit participant families to each camp). Similar to the Specialty Camp Incubator model, FJC will provide a variety of resources including training, capital funding, staff capacity funding and family subsidies.

APPLICATION DEADLINE: September 8, 2020

Program Criteria:

- Each camp will offer a minimum of three family camps per year.
- Each family camp will serve a minimum of 20 families in Year 1 with the expectation of capacity growth per weekend over the course of the five years and eventually become financially viable (break even or net positive).
- Each family camp weekend will be hosted in partnership with an organization/s that targets an underserved Jewish population (under-engaged, interfaith, RSJ, Honeymoon Israel, PJ Library, etc.).
- Each family camp will have deep Jewish educational content that is appropriate and geared towards the populations/communities being served.
- Each family camp must take place over Shabbat or a Jewish holiday, must last a minimum of two nights, and must have a Jewish educator designated as the educator-in-residence for planning and executing the family camp weekend.
- Camps participating in this program will brand each of the supported family camps with a master “JFam” brand and logo, with each camp and partner organization featured alongside it, per the parameters to be set forth by FJC.
- Camps must participate in a family camp evaluation protocol to be developed by FJC in consultation with the pilot camps.
