

The Amazing Know-it-All Brain

Experience Guidelines

- 2-5 volunteer participants will be up in front of the group
- They represent the VERY knowledgeable Amazing Know-it-All Brain
- One at a time, participants in the audience will ask the Brain a question (e.g., “How do clouds form?”)
- The Brain will then answer in this way:
 - The people who make up the Brain will say one word at a time to answer, taking turns and then going back through the same order once everyone has said a word
 - Repeat this until one of the Brain members decides the answer is complete and uses their turn to say a punctuation mark (i.e., period, question mark, exclamation point).
 - **EXAMPLE ANSWER:** Clouds. Form. When. Water. Falls. Into. The. Sink. And. Nobody. Turns. The. Faucet. Off. Period.
- Time for the next question!

Strategic Action Plan

- Specific
- Measurable
- Attainable
- Result-oriented
- Time-specific

Action #1—Goal for Building Trust

I want to _____
(specific, changeable behavior)

& see how well I can accomplish this by ____ / ____ / ____.
(Month / Day / Year)

I will know I have accomplished this goal because _____

(a way to observe/measure success)

Action #2—Goal for Building Collaborative Problem-Solving

I want to _____
(specific, changeable behavior)

& see how well I can accomplish this by ____ / ____ / ____.
(Month / Day / Year)

I will know I have accomplished this goal because _____

(a way to observe/measure success)

Action #3—Goal for Building Reactive Adaptation

I want to _____
(specific, changeable behavior)

& see how well I can accomplish this by ____ / ____ / ____.
(Month / Day / Year)

I will know I have accomplished this goal because _____

(a way to observe/measure success)
